

Oulton Park Circuit, Little Budworth, Tarporley, Cheshire CW6 9BW England

"They're fantastic - especially if you change cars regularly and don't want to fit harnesses!! I hit the barrier in a [Mitsubishi] VI R Saturday at tremendous speed and rolled it at Oulton Park. The car twisted / turned and rolled like a rollercoaster, ending up some 200 meters from the impact.

"As you can see, the roof was dented in by quite a few inches just where my head was. Luckily I had the CG-Lock on, which held me firmly into the seat while the car was rolling - especially as I'm 6' 4".

"I'm lucky to have walked away with cuts & bruises but I'm sure I would have had much worse injuries had it not been for the CG-Lock."
