# PRESS RELEASE

FOR IMMEDIATE RELEASE

## C.O.P.S. ANNOUNCES PARTNERSHIP WITH CG-LOCK

*CAMDENTON, MO, SEPTEMBER 18, 2007:* Concerns of Police Survivors, Inc. (C.O.P.S.), a national non-profit organization headquartered in Camdenton, MO, announces a relationship with the Lap Belt Cinch, Inc., developers of the CG-Lock, whose mission is “Enhancing Seatbelts for Control, Comfort and Safety”.

The partnership began this month for customers purchasing the CG-Lock through the company’s website at [www.cg-lock.com](http://www.cg-lock.com) and entering the C.O.P.S. coupon code, with a portion of the proceeds going directly to C.O.P.S. Additionally, for orders placed for the CG-Lock by customers on the PoliceOne.com website, a corresponding portion of the proceeds will go directly to C.O.P.S.

The CG-Lock was designed to create a stable ‘Center of Gravity’ so the driver can focus on driving while keeping themselves from sliding around in their seat. For police officers, the CG-Lock provides greater comfort all day long when sitting or cruising while providing the control and stability of a racing harness when needed. There have been fewer accidents due to better control and stability coupled with enhanced safety in forward and lateral impacts as well as rollovers, resulting in reduced potential for injuries.

The CG-Lock will enhance the driving and riding experience not only for police officers, but their family members as well. Our primary objective is to reduce injuries and deaths of drivers and passengers involved in auto accidents, particularly for children. For every CG-Lock order using the COPS coupon code, \$5 will go to Concerns of Police Survivors, Inc.

For more information on this new partnership, please visit our website at [www.nationalcops.org](http://www.nationalcops.org)
